Anti-Spatter Nozzle Gel

Typical Applications

Crown 69-Dip provides excellent protection against weld spatter build-up on MIG gun nozzles, contact tips, positioners, cutting and scarfing tips, stud welding chucks, spot welding tips, electrode holders on all semi-automatic and automatic welding apparatuses, jigs and fixtures. This added protection results in longer life and ease of cleaning.

The **Crown 69-Dip** does NOT cause porosity and it meets all safety regulations!

The **Crown 69-Dip** creates an anti-spatter film that will not clog orifices or threads. It eliminates erratic operation.

Specifications

- Appearance Purple Viscous Gel
- Odor None
- Non-Flammable
- Non-Toxic
- Silicone Free

Procedure

Dip hot gun nozzles and tips about 1/2" deep in to the **Crown 69-Dip**. Allow excess to drip back into container. Wipe on jigs and fixtures with cloth or brush. Repeat as needed.

Sizes and Part Numbers

Packaging	Part Numbers
16 Ounce Jars	XD69/C
